

ESSENTIAL DENTISTRY

TEAM MAKES PATIENT HEALTH AND COMFORT TOP PRIORITY

Dr. David E. Williams, Dr. Brett S. Williams and the Essential Dentistry team are proud to be serving the community of Okotoks and the surrounding Foothills area. With their combined experience and knowledge they provide convenient extended hours and a full range of dental services for the entire family.

Dr. David E. Williams and Dr. Brett S. Williams

The health and comfort of their patients is the number one priority for the Essential Dentistry team. They offer a calm and relaxed experience with virtual vision movie glasses, painless computerized numbing and sedation dentistry options.

Quote: "We help many people who are fearful and have avoided seeing the dentist. Our goal is to assist patients of all ages with their dental anxiety and help them receive the treatment they need." (Dr. B. Williams).

Essential Dentistry utilizes the technologies and products that promote health and healing for their patients. A Diagnodent is used for early cavity detection, a Waterlase laser for comfortable tooth and gum treatments and digital X-rays to reduce radiation.

The Essential Dentistry team values their role in educating patients about the health benefits of regular dental visits, preventative care and healthy habits. Current research suggests that the inflammation associated with dental disease increases the risk of diabetes, respiratory disease and cardiovascular disease. Dr. David Williams recently published a paper based on research identifying a link between dental occlusion, periodontal disease and neuro-degenerative diseases, including M.S.

Quote: "As a dentist I am excited to be utilizing our dental knowledge and experience to help people who suffer from this debilitating disease. Dental care is essential to healthy living!" (Dr. D. Williams).

The Essential Dentistry team provides a variety of services, including dental hygiene treatments, tooth whitening, fillings, root canals and cosmetic dentistry designed to improve your oral health.
